INSECT PEST SURVEY

Bureau of Entomology, U.S.D.A., and
State Entomological Agencies, cooperating.

Special Report No. 25.

May 9, 1923.

PEA APHID (Illinoia pisi Kalt.)

Telegraphic communication has just been received from Prof. Leonard Haseman of Missouri, to the effect that the pea aphid is seriously damaging alfalfa from Kansas City to Booneville, covering practically the western half of Missouri. A similar condition was reported last month from Topeka, Kansas.
